

CANTO WALLART.

The Canto Wallart combines ergonomics, functionality and aesthetic balance. Available in both remote or manual ignition, the eye-catching two open sides allow for better fire exposure and is our favourite option as an architectural solution. Made from mildsteel. For indoor use as a primary source of heat. No chimney required. Low emissions. Fitted with Flame failure device.

1100 model heats 220m^3 and uses 785g/h
